

3. Empirical Evidence & Market Traction

Validation & Impact

The AI Cognitive Debt

Unconstrained AI reliance degrades thinking, brain connectivity and memory.

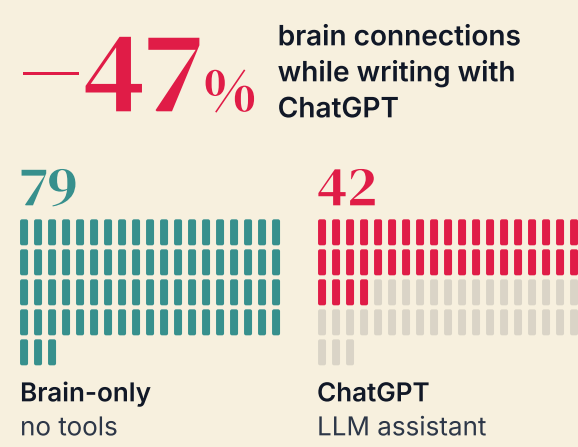

FIG 5. One mark = one EEG connection; faded = lost. Kosmyna et al., MIT 2025, N = 54.

Empirical Validation

Employers rank analytical thinking first. Parents pay for structured screen time.

FIG 7. Employers rating each a core 2030 skill. WEF, Future of Jobs 2025.

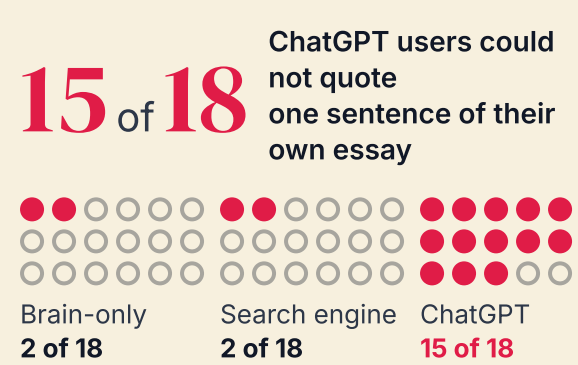

FIG 6. One dot = one participant; red could not quote ($p < .001$). Kosmyna et al., MIT 2025.

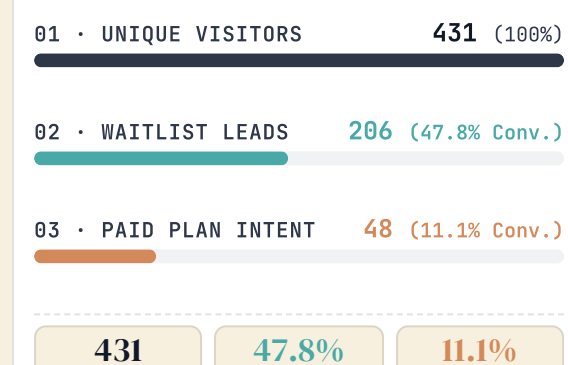

FIG 8. Landing-page test: 11.1% paid intent, cold audience, no card. n = 431.

We don't ban AI, we prepare children for it.

Children will use AI either way — the question is who commands whom. LogicLab Kids anchors screen time to reasoning.
